DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

1. The reply filed on March 11, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the reply does not comply with the revised amendment practice effective July 30, 2003. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
2. The remarks in the Specification Amendments section on page 3 and page 4, lines 1-5 of the amendment filed March 11, 2005 should have appeared in the Remarks section of the amendment.
3. Applicant references in the Specification Amendments section of the amendment filed March 11, 2005 the paragraphs of the specification as originally filed by a number designated for them within the body of Specification Amendments section. Because the paragraphs of the specification as originally filed were not numbered, the paragraphs of the specification being amended should be designated by the page(s) and line number(s) of the specification as originally filed. For example, applicant appears to be amending in one instance the paragraph beginning on page 6, line 17 and ending on page 7, line 7. Applicant should have directed that the paragraph beginning on page 6, line 17 and ending on page 7, line 7 be replaced.
4. The paragraphs of the specification can be given a number by filing a substitute specification. The paragraph number should be in brackets and begin as follows: [0001].
5. The remarks in the Claim Amendments section appearing on pages 14-17 of the amendment filed March 11, 2005 should have appeared in the Remarks section of the Amendment. The Claim Amendment section should only contain the claims and their current status.
